EDUCATION

- B. Tech | Lords Institute of Engineering and Technology JNTU, Hyderabad 62% | 2020
 - 12th | Bahara Adarsha Vidyapith, West Bengal 69% | 2015

WORK EXPERIENCE

Freelance & Professional Development

June 2023 – Present

- Freelance Content & Ghostwriter, boosting engagement through email and digital content.
 - Project Manager at Yousuf Enterprise, managing teams and project workflows.
 - Built hands-on Java projects using Spring Boot, Docker, Git/GitHub, and AWS.

Software Trainee | Nendrays Technology, Hyderabad

May 2022 - Feb 2023

- Coordinated with the SAP Hybris backend team to design, implement, and optimize scalable e-commerce systems.
 - Developed features using Java, Spring, Spring Security, and SAP Hybris.
 - Delivered secure, high-performance backend services using coding best practices.

Full Stack Java Developer Intern | TalentSprint, Hyderabad

Apr 2021 - Aug 2021

- Collaborated with a full-stack development team to build an e-commerce web application.
 - Developed both front-end and back-end features using Java, Spring Boot, Angular, and SQL.

PROJECTS

E-commerce Web Application | [GitHub](#)

Dec 2025 - Present

- Developed a Java-based E-commerce application with a well-structured database design.
 - Implemented dynamic product retrieval from the database for the home page
 - Working on user authentication and cart functionality to enhance security and usability.

Employee Management System | GitHub

Sep – Nov 2025

- Built an Employee Management & Attendance System using Java, Spring MVC, and MySQL.
 - Implemented attendance tracking and leave management features.
 - Developed admin Module for approvals and CRUD operations on employee records.

Vehicle Mart

Jul – Aug 2021

- Built e-commerce app with search, cart, and purchases using Java, Spring Boot, MySQL.

ACHIEVEMENTS

- Deployed production-ready Spring Boot applications using Docker containerization, GitHub Actions CI/CD pipelines, and AWS cloud hosting.
